DID YOU KNOW?

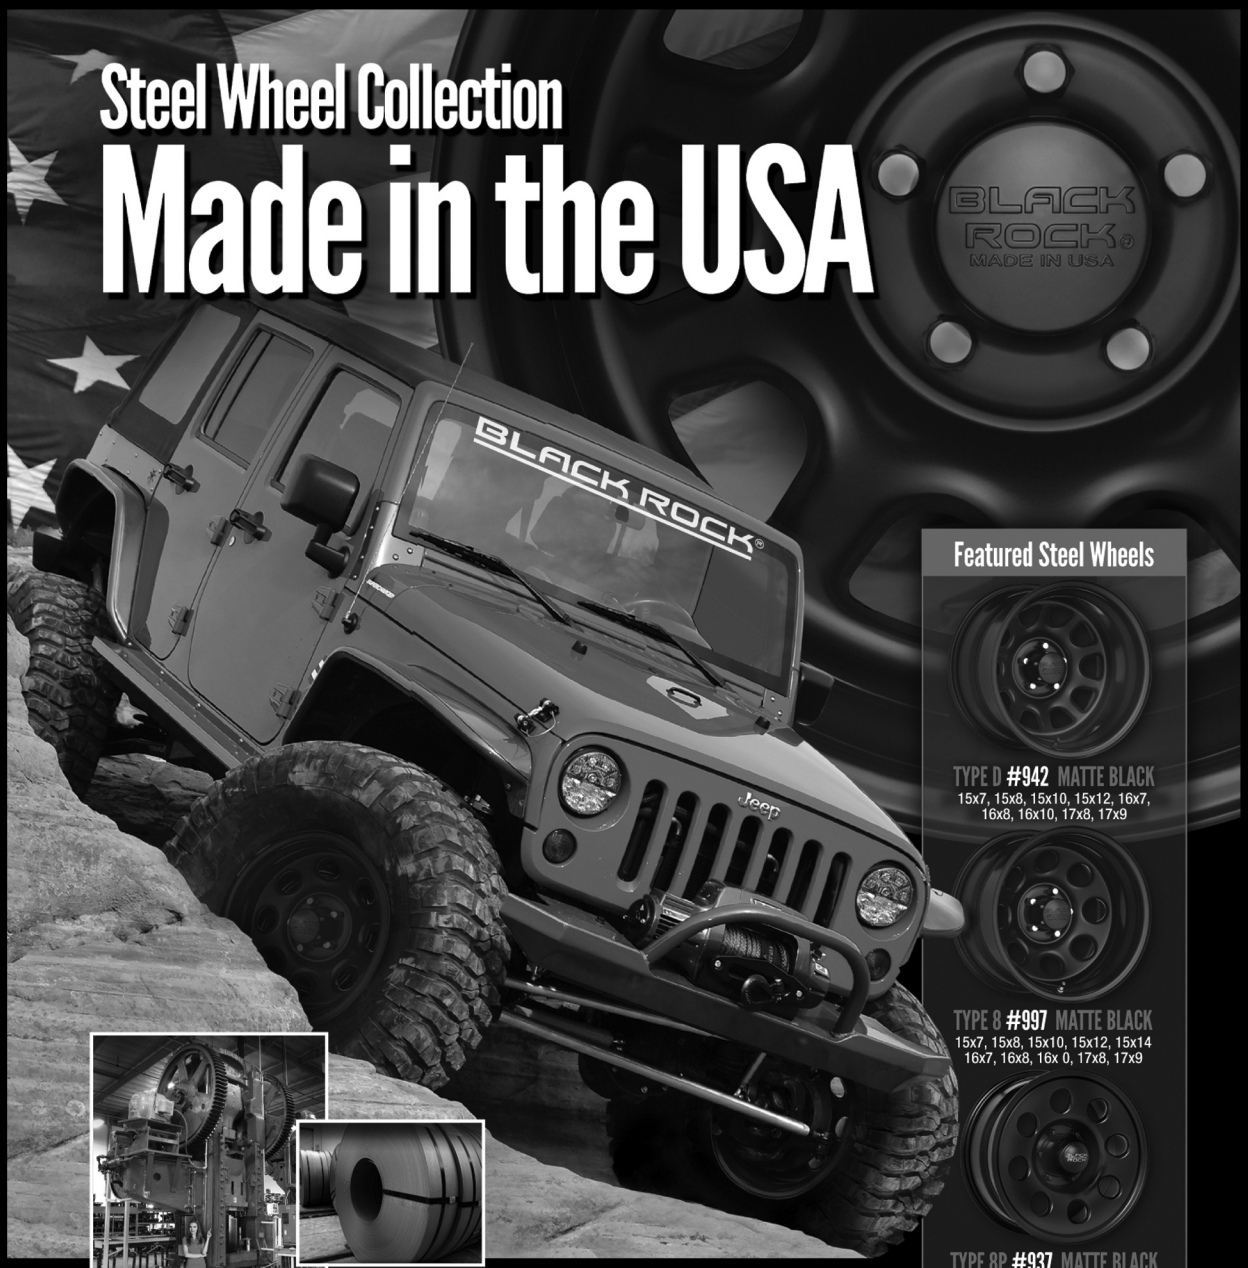
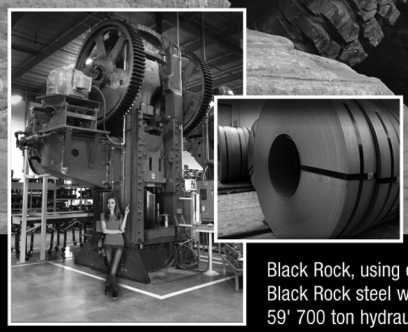
Black Rock actively participates at Moab, Rubicon, Baja (250, 500 and 1000) and many other enthusiast events.

BLACK ROCK®

Steel Wheel Collection
Made in the USA





Black Rock, using only American-made, hot-rolled raw steel, stamps all Black Rock steel wheels in-house (Shown in photo: hot-rolled steel and 59' 700 ton hydraulic press, Black Rock Factory, Ontario, California.)

Real Steel, Proudly Made in the USA

To build our rugged Black Rock Steel Wheel Collection, we start with U.S. made hot rolled steel. From there, we shape, cut, roll form, stamp, weld, drill, measure, test, powder coat, clean, test and measure again, include a center hub cap, and package, until our components become your wheels. All in the U.S.A. Yes, we still believe that great ideas become great products right here in the good old U.S.A.

NOTES

WHEEL CARE INSTRUCTIONS

Wheels depicted in this Collection are offered in a variety of finishes including paint (liquid and powder coated application), clear coat, chrome, polished aluminum and Black Rock's specially formulated powder coating.

Clean wheels regularly with soap, mild degreaser or quality spray-on wheel cleaner. Use with water and a soft brush or micro-fiber cleaning cloth. For best results, it is important to keep wheels clean, not allowing road film, contaminants and brake dust which retain moisture to accumulate. For winter road conditions where roads are treated with salt or other chemicals, regular cleaning is even more important. Avoid harsh or abrasive cleaners. NEVER CLEAN HOT WHEELS. Allow wheels to cool or cool with water prior to cleaning. To seal and protect the surface following cleaning, apply wax or polymer sealant product.

CLEAR COATED WHEELS

Many painted wheels are permanently coated with a clear protective coating, essentially a non-pigmented, clear paint. As discussed above, clear-coated wheels should require only simple and safe cleaning products. DO NOT USE ABRASIVE CLEANERS OR POLISHES. Seal and protect with wax or polymer sealant product.

CHROME WHEELS

Aluminum or steel wheels plated with chrome should be cleaned regularly as described above. If necessary, a quality non-abrasive chrome polish may be applied. Rinse thoroughly and dry with soft non-abrasive cloth to avoid water spots from soap, chemicals or water. For best results after cleaning chrome, seal and protect the surface with wax or polymer sealant.

POLISHED ALUMINUM WHEELS

Polished aluminum wheels are popular for racing, off-road and hot rod applications but require regular maintenance. Polished aluminum alloy wheels oxidize with exposure to weather and road conditions. When new, protect and seal polished wheels with a quality, hand-applied wax or polymer sealant product. When polished aluminum wheels begin to lose shine, clean as instructed above, using care to avoid scratching uncoated aluminum surface. To restore factory shine, polish by hand with quality metal polish recommended for aluminum. For best results after polishing, seal and protect the surface with wax or polymer sealant. To restore vintage or older polished aluminum wheels, re-polish commercially or by hand.

BLACK ROCK® STEEL WHEELS

Black Rock® steel wheels are made in the U.S.A. and permanently coated with a specially formulated weather-resistant finish. The coating is a permanent, baked-on industrial finish. It is durable and easy to clean. Clean wheels regularly, using soap, water, a mild household degreaser or a quality wheel cleaner product and a soft brush and/or micro-fiber cleaning cloth. Do not allow brake dust and road film to build up on surface. DO NOT USE ABRASIVE OR ACID CLEANERS. Never clean hot wheels. Allow wheels to cool or cool with water prior to cleaning. For best results, seal and protect finish with wax or polymer sealant.

LIMITED WARRANTY

Steel Wheels. CTP Transportation Products, LLC (CTP) warrants wheels to be free from defects in materials and workmanship, subject to the terms, conditions and limitations stated herein. Wheels are warranted to be free from structural failure for as long as the original purchaser owns the product. CTP's liability for wheels shall be limited to replacement of any defective wheel plus applicable taxes, if any. The Warranty period for steel wheel coatings, including paint, chrome plating, clear coat or other coating, is ninety (90) days from date of purchase. Surface rust can be prevented by proper care and is not covered by this warranty. See Wheel Care section.

Aluminum Wheels. CTP warrants aluminum alloy wheels to be free from defects in material and workmanship under normal and intended use for a period of one (1) year from retail purchase. Wheels are warranted to be free from structural failure for as long as the original purchaser owns the product.

This Warranty is in lieu of all other express and implied warranties, including warranties of merchantability and fitness for a particular purpose. CTP agrees to repair or replace, at the sole discretion of CTP, wheels that are returned for warranty inspection to 1990 S. Vintage, Ontario, California 91761 (freight prepaid), and which, after examination show that said product has failed in normal use and service due to material and/or workmanship. Call Warranty Dept. at 909.947.1831 for additional information. CTP, by the sale of products to Distributors and Dealers engaged in the sale of automotive parts and accessories, makes no express or implied warranty or representation as to the quality of workmanship of said distributors and dealers or the ability of any individual connected therewith to render technical advice or assistance in connection with installation or use of CTP wheels. No distributor, dealer or other entity or individual is authorized to modify or amend this Warranty in any respect.

This warranty is void if:

A. the product has been subject to misuse, damage in transit, accident, negligence, abuse, racing, off-road use, aftermarket modification, or has been repaired or altered in any way,
B. the product(s) have not been installed according to instructions provided with the wheels or in accordance with tire and wheel industry standards,
C. wheels are installed with accessories other than CTP accessories,
D. the original sales documents are not provided for verification, or
E. the wheel(s) are not fit-checked before mounting.

CTP assumes no responsibility for diagnosis, removal and installation labor, loss of vehicle use, loss of time, inconvenience, or other consequential expense.

CTP reserves the right to make changes in design, materials or specifications, or to make product changes without prior notice or obligation to incorporate same into purchased items. This Limited Warranty gives you specific legal rights and you may also have other rights which vary from state-to-state.

RETAIL PRICING POLICY (MAP PRICING POLICY)

MANUFACTURER'S PUBLISHED PRICES FOR EACH BRAND AND PRODUCT ARE INCLUDED IN THIS PUBLICATION AS A GUIDELINE FOR DETERMINING THE MARKET VALUE OF EACH PRODUCT. IN SOME MARKETS, AUTHORIZED DEALERS MAY SELL PRODUCTS AT PRICES EXCEEDING PUBLISHED PRICING AND IN OTHERS, ADDITIONAL DISCOUNTING MAY BE REQUIRED TO MEET MARKET CONDITIONS.

MARKUPS OR DISCOUNTING FROM OUR PUBLISHED PRICES STATED HEREIN ARE AT CUSTOMER DISCRETION. HOWEVER, IT IS OUR POLICY TO RESERVE THE RIGHT TO IMMEDIATELY TERMINATE A DEALER RELATIONSHIP, WITH OR WITHOUT PRIOR NOTICE, WITH ANY DEALERS SELLING OUR PRODUCTS BELOW THE FOLLOWING MAXIMUM RECOMMENDED DISCOUNTS

BLACK ROCK 28%
CRAGAR 28%
UNIQUE 28%

THIS POLICY APPLIES TO ALL DISTRIBUTORS AND RESELLERS, WITHOUT EXCEPTION, AND HAS BEEN IMPLEMENTED TO SUPPORT OUR MANY VALUED CUSTOMERS. WE VALUE YOUR BUSINESS AND WANT TO HELP MAINTAIN THE INTEGRITY OF FAIR MARKET PRICING.

FOR ADDITIONAL INFORMATION RELATING TO OUR PRICING POLICIES, CONTACT YOUR ACCOUNT REPRESENTATIVE.

NOTICE

PRICES AND PRODUCT SPECIFICATIONS INCLUDED HEREIN SUBJECT TO CHANGE WITHOUT NOTICE. PRODUCT AVAILABILITY SUBJECT TO INVENTORY. ALL PRODUCT IMAGES, ILLUSTRATIONS, PHOTOGRAPHS AND REPRESENTATIONS HEREIN BASED UPON PRODUCT INFORMATION AVAILABLE AT TIME OF PRINTING. SOME PRODUCTS MAY VARY IN APPEARANCE. SEE ACTUAL PRODUCTS FOR ACCURATE PRODUCT DEPICTION. MANUFACTURER RESERVES THE RIGHT TO CHANGE, LIMIT OR DISCONTINUE AT ANY TIME, WITHOUT PRIOR NOTICE, PRODUCTS, PRODUCT PRICES, FINISHES, MATERIALS, APPLICATIONS AND SPECIFICATIONS, INCLUDING WARRANTY PROVISIONS. THE BRANDS AND PRODUCTS DEPICTED HEREIN, INCLUDING ALL RELATED IMAGES, LOGOS, PRODUCT NAMES AND OTHER MARKETING MATERIALS, ARE THE EXCLUSIVE PROPERTY OF THE MANUFACTURER. NO PART OF THIS PUBLICATION MAY BE REPRODUCED OR TRANSMITTED IN ANY FORM OR BY ANY MEANS, ELECTRONIC OR OTHERWISE, WITHOUT WRITTEN PERMISSION OF THE MANUFACTURER.

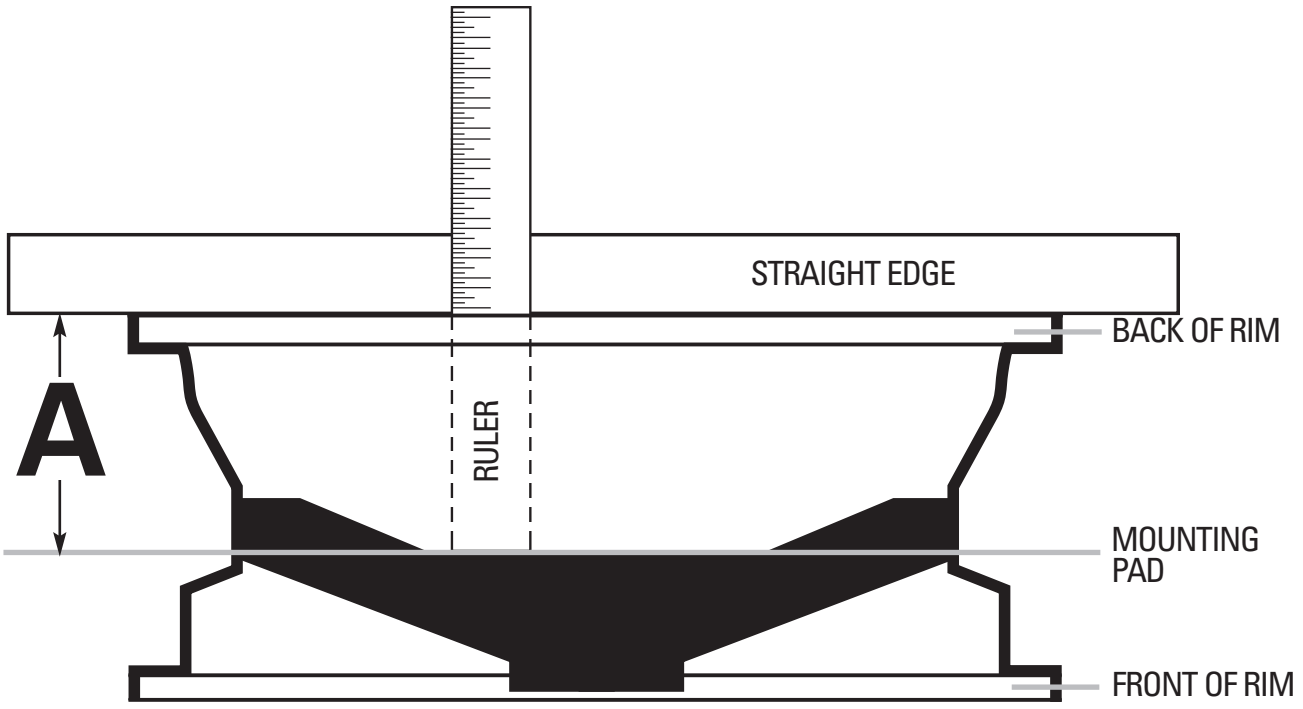
ADVISORY

MOST LOW PROFILE TIRES NO NOT OFFER THE SAME TIRE SIDEWALL PROTECTION AS ORIGINAL EQUIPMENT OR STANDARD PROFILE TIRES. WHILE LOW PROFILE TIRES MAY INCREASE CORNERING STABILITY AND OTHER PERFORMANCE CHARACTERISTICS, RIDE QUALITY AND RIM PROTECTION MAY BE DECREASED. RIM DAMAGE DUE TO ROAD HAZARDS MAY OCCUR AS A RESULT OF THE USE OF LOW PROFILE TIRES.

SAFETY NOTIFICATION

WHEN SELECTING/INSTALLING AFTERMARKET WHEELS AND TIRES, ALWAYS ENSURE THAT THE SIZE OF REPLACEMENT PRODUCTS ARE WITHIN +2.00% TO -3.00% OF THE ORIGINAL OVERALL TIRE DIAMETER RECOMMENDED BY THE MANUFACTURER OF YOUR VEHICLE. THE USE OF WHEEL AND TIRE COMBINATIONS EXCEEDING THESE LIMITATIONS MAY REQUIRE ANTI-LOCK BRAKE SYSTEM ADJUSTMENT OR MODIFICATION, OR CHANGES TO OTHER VEHICLE SYSTEMS. SEE YOUR AUTHORIZED VEHICLE MANUFACTURER REPRESENTATIVE OR BRAKE MANUFACTURER.

HOW TO MEASURE BACKSPACING



A = BACK SPACING MEASUREMENT

Step #1:
Remove a wheel from your car and lay it on a flat surface with the backside (the side that faces the brakes) facing up.

Step #2:
Lay a straight edge across the wheel. With a ruler or measuring tape, measure the distance from the lower edge of the straight edge mounting pad. To avoid interference, you may need to deflate or remove the tire from the wheel to complete this measurements.

The measurement ("A" in the diagram) is the amount of backspacing of the wheel.

USEFUL TERMS:

Rim Width:
Width measurement from bead seat to bead seat, not across the flanges of the rim.

Rim Diameter:
Height measurement from bead seat to bead seat, not across the flanges of the rim.

Rim Flange:
Outermost edge of rim to which clip-on wheel weight are fastened.

Bead Seat:
Area where tire bead rests and seals on the inside of the rim.

Safety Bead:
Raised areas circling the rim slightly inward from the bead seat. Required by D.O.T. on all wheels for street driven vehicles. It keeps the tire from slipping off the rim bell when deflated or under-inflated.

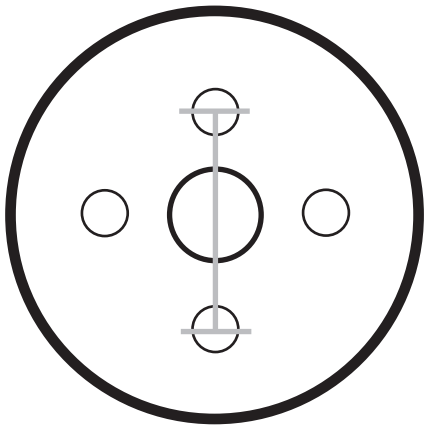
Rim Bell:
Area between edge of rim and rim drop area.

Rim Drop:
Area of rim having the smallest diameter.

Mounting Pad:
Flat surface at rear of hub that mounts against hub of vehicle.

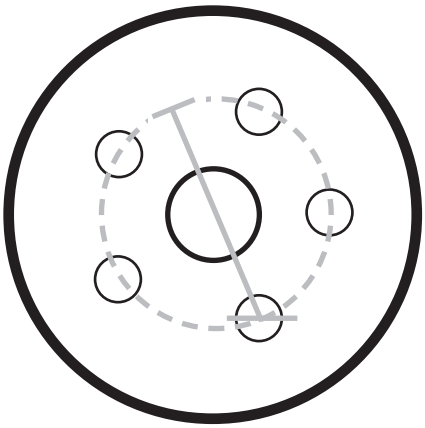
HOW TO MEASURE BOLT CIRCLES

4 LUG



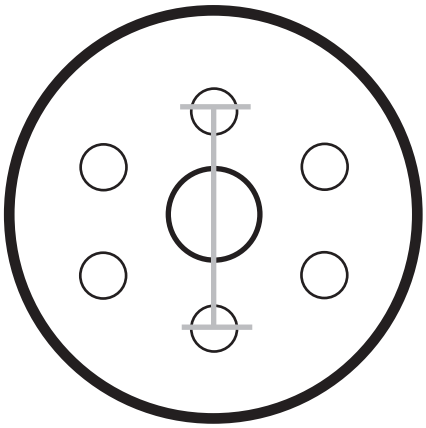
Middle of 2 holes directly across from one another.

5 LUG



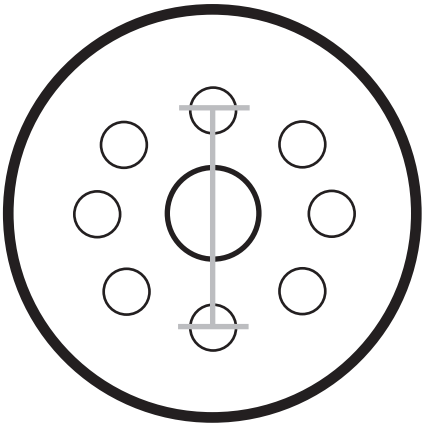
It is necessary to use a "Bolt Pattern Gauge"to obtain an accurate measurement.

6 LUG



Middle of 2 holes directly across from on another.

8 LUG



Middle of 2 holes directly across from one another.

Step #1:
Pick drawing that represents your wheel.

Step #2:
Measure as shown. Measurement equals bolt circle size.

USEFUL TERMS:

Bolt Circle (Pattern):
The diameter of an imaginary circle drawn thru the center of each lug hole or stud.

Centerline:
The exact center of width measurement of rim.

Positive Offset:
Indicates that the mounting pad is in front of, or on the street side of, the centerline of the rim. Most often found on wheels for front wheel drive vehicles. Sometimes, this is also referred to as "inset".

Negative Offset:
Indicates that the mounting pad is behind or on the drum side of the wheel. Found on most standard rear wheel drive vehicles and on many reversed wheels. Sometimes, this is also referred to as "outset".
